December 15, 2009

Dear Steamboat Springs School District Community,

Steamboat Springs School District is pleased to announce the availability of our 2008-2009 Annual Report to the Public.

Every year, school districts in Colorado report about their performance to their communities, based on requirements in the *No Child Left Behind Act*. In addition, state law has required that districts report district accreditation information.

Both the information required by federal law and district accreditation information is now available on the Colorado Department of Education's Web site at <http://www.schoolview.org/SchoolPerformance/index.asp>

There, the district profile for Steamboat Springs School District includes the following information:

Assessment Data

1. Colorado Growth Model. The Colorado Growth Model provides a common understanding of how individual students and groups of students progress from year to year on the Colorado Student Assessment Program (CSAP) toward state standards based on where each individual student begins.
2. CSAP results by grade level for each school and for the district. Results are disaggregated by race/ethnicity, English language learners, economically disadvantaged students and students with disabilities.
3. School and district CSAP performance for the last two years, compared with the state of Colorado as a whole.
4. CSAPA results (for students given the alternate assessments), if applicable.
5. National Assessment of Educational Progress results for Colorado students as a whole and disaggregated by race/ethnicity, English language learners, economically disadvantaged students and students with disabilities.

Accountability Data

1. Adequate Yearly Progress (AYP) results. Adequate Yearly Progress is the federal accountability measure for schools and districts under the No Child Left Behind legislation. The report includes the overall AYP determination for schools and districts as well as their specific AYP results.
2. The names and number of schools in your district that are identified as Schools on Improvement under No Child Left Behind.

Teacher Quality Data

1. The percent of classes not taught by Highly Qualified Teachers, and disaggregated by high and low poverty schools.
